## Annual Concrete Boat Competition - 2010

The Concrete Society of Southern Africa - Inland Branch will, once again, be hosting the celebrated annual Concrete Boat Competition. This occasion is intended to bring together members from various disciplines that constitute the Concrete Society, as well as students from the tertiary education institutions. The event serves to introduce the student to the cement and concrete industry and facilitate networking between the various interest groups in a fun atmosphere.

This is an ideal opportunity to offer your employees a family fun day, a reward, an inter-department challenge, a team-building exercise, etc., (use your imagination). Several sponsorship opportunities are available and offer an opportunity to promote your company or products.
